

RUBBER TRAINING KNIVES

Now you can practice with some of our most popular knife designs, in relative safety, with our rubber training knives. We have rubber training versions of our Peace Keeper™ I, the R1 Military Classic, Recon Tanto, and the Black Bear Classic. Each has been carefully fashioned to look as realistic as possible so they can be effectively used in solo practice, training drills, disarm drills, and demonstrations and any other activity where you want a reasonably close approximation of realism but not the extreme danger and risk associated with an actual knife. The Santoprene rubber blades are soft enough to prevent the likelihood of most bodily injury. They do however, have a level of firmness that might cause injury to the face or the eyes, so it is recommended that appropriate eye protection or a fencing mask is utilized at all times when using a Cold Steel® rubber training knife.

SPECIFICATIONS:	Weight	Blade	Overall
Recon Tanto:	3.1 oz.	7"	11 3/4"
Peace Keeper I:	3.2 oz.	7"	12 1/4"
R1 Military Classic:	3.2 oz.	6 3/4"	11 1/2"
Black Bear Classic:	3.7 oz.	8 1/8"	13 1/8"

KOGA SD SERIES

Bob Koga began his martial arts career at an early age beginning with Judo at 12 and moving on to wrestling in high school. After graduation Bob joined the Air Force and, while stationed in Japan, he resumed his Judo training as well as studying Jiu Jitsu, Jo-do and Aikido. After finishing his stint in the Air Force, Bob moved to Los Angeles where he joined the LAPD and served with great distinction for 25 years. During his tenure with the LAPD, Bob became widely recognized as an outspoken proponent of the straight baton as opposed to the PR24® or side handle baton (currently popular in departments across the land).

The Koga SD's are made of virtually unbreakable plastic, and can increase the ability of the average person to defend himself several times over. With proper training, they can function as a fantastic aid in leverage when obtaining joint locks or submission holds. But where they really shine is as an intermediate impact tool. You see, police and civilians alike face a perplexing dilemma when contemplating employing fist or baton blows. Blows struck with the fist may be too weak, or worse, result in a broken hand, while blows struck with a baton may be too powerful resulting in grave injury or even death. The Koga SD's however, solve this problem, neatly bridging the gap by concentrating and magnifying the effect of hand blows while minimizing the likelihood of permanent injury or death. If you're looking to expand your continuum of force options in a self-defense situation, we heartily suggest you buy a Koga SD.
